

Suggested Use: For optimal results, mix 1 packet or 5 grams of powder with 2-4 ounces of water (water may be increased to desired taste). Consume one or two times daily prior to meals.

Supplement Facts

Serving Size: 5 grams (1 packet)
Servings per Container: 30

Amount per Serving:

Sodium	90 mg	<4%*
Potassium	125 mg	<4%*
Total Carbohydrate	less than 2 g	<1%*
Limu NEI proprietary blend	5.0 g	**
Limu (<i>Laminaria Japonica</i>) 40:1 and Fucoidan 80% extract in an all-natural effervescent and isotonic base.		

“Fibromyalgia and what we call Fibro Fog, the inability to focus and concentrate, have haunted me for years. You can’t imagine how good it feels to be pain free and focused. Thank you Limu NEI!”

—B. Atkins.

“I have been taking Limu NEI for three months and I have experienced increased energy to exercise, and the clarity and well-being to accomplish more emotionally. I’ve been helping more around the house with my increased energy, so my wife likes that too!”

—E. Harmon

Limu NEI, with Fucoidan and Colostrum, is the most powerful, dynamic anti-aging, inch-loss, muscle-toning, immune-boosting, essential vitamin and mineral wellness supplement available on the market today.

You Can Slow Down the Aging Process

Evidence now suggests that disease, including chronic degenerative disease, is not the inevitable consequence of aging, but rather the result of the individual’s Neuro-Endocrine-Immune (NEI) systems reacting to today’s stressful environment.

Neurological System: Mood, memory, and clear mental focus are all functions of your neurological system. When the nervous system weakens, it affects many different areas of the body. An individual can become insulin-resistant, muscle loses tone, and the body starts to take on an *apple* shape. Blood cholesterol, triglycerides, and blood pressure increase, fatigue sets in and sleep becomes restless. An individual slips toward depression and inflammation increases, and the body’s ability to defend against infections like the common cold and flu decrease.

Endocrine System: The hormonal or endocrine system controls everything from hot flashes to testosterone levels, from metabolic function to the repair and regeneration cycles of our cells. As we age, the hormonal levels change and the ability to repair and regenerate is reduced.

Immune System: The purpose of the immune system is to keep infectious microorganisms such as certain bacteria, viruses, and fungi, out of the body and to destroy any infectious microorganisms that do invade the body. The immune system is made up of a complex and vital network of cells and organs that protect the body from infection. Impaired immune performance causes the body to fall prey to serious infections, injury, and disease producing organisms. Our immune system becomes less effective, and the body cannot rid itself of the toxins that build up. It takes a little longer to recover from small illnesses, and we become more vulnerable to disease.

These three systems play a critical role in our body’s ability to Reduce, Repair, and Rebuild—conditions greatly necessary to maintain youthful vitality and health. Limu NEI directly addresses the needs of these systems.

The future of nutritional science lies not in merely supporting one body system as if it functioned independently of the others, but in a product that supports the major body systems simultaneously. LIMU NEI is a unique discovery which is experiencing overwhelming success in helping to balance, strengthen, and support these systems.

How was Limu Discovered?

There is an island off the coast of Okinawa called Hachi Jo, known as the *island of longevity*. This island has a reputation of producing a disproportional number of centenarians—people who live over 100 years of age. In fact, the residents are rarely infected with modern diseases such as cancer, irregular blood pressure, strokes, cardiac infarction, or Alzheimer disease. Curious health minded researchers questioned their superior longevity, vigor, disease resistance and overall body strength and stature. The relative longevity and health was attributed, in part, to their consumption of Limu.

It was further discovered that Japanese women experience one of the lowest breast cancer rates in the world. The Japanese population also has a lower incidence of heart disease, respiratory disease, arthritis, thyroid disease, infectious disease, gastrointestinal problems, high blood pressure and diabetes. Recent studies credit continuous consumption of seaweed (Limu) in providing the Japanese people with a distinct advantage over the rest of the world’s population.

What is Limu NEI?

Limu NEI is a combination of Limu and first milking colostrum. Limu is a special brown seaweed growing in the pristine waters of the Pacific ocean near the island called Hachi Jo. It is a natural food based substance that has a healing effect on the Neuro-Endocrine-Immune systems of the body. See for yourself how unique and truly wonderful this product is.

Components & properties found in Limu NEI:

All Essential Amino Acids: Building blocks for hormone, muscle, and connective tissue.

All Essential Fatty Acids: Builds cell membranes. The strength of the cell wall determines the rate at which an individual ages.

All Essential Glyconutrients: Essential for proper cell communication (one of the 10 most important technologies of the 21st century, according to MIT scientists). Glyconutrients also encourage NK-Cells and B-Cells regeneration, thereby speeding up the body's immune attack against foreign invaders.

Transfer Factors: Helps immune system remember how to attack invading diseases.

Over 95 Immune Factors: Your immune system is under constant attack. When your body is properly defended, disease and illness decrease.

All 87 Natural Anti-Aging Growth Factors: IGF-1 & IGF-2 are some of the IGF-1 Super Family that stimulate new cell growth in the body, and have been proven to help with the following issues.

- ◆ Repair damaged tissue.
- ◆ Helps fight premature aging—lessens wrinkles, reduces fat, renews skin and bone.
- ◆ Increases energy, lean muscle mass, and sex drive.
- ◆ Found in association with every cell in our body and every system in our body.

- ◆ Helps with muscle strength, skin texture, skin elasticity, new hair growth, flexibility, emotional stability, memory.

Fucoidan (Over 700 scientific studies support the benefits): Highly concentrated complex polysaccharides that represent one of the most important discoveries in nutrition and immune support.

- ◆ Enhance Immunity.
- ◆ Fight Allergies.
- ◆ Inhibit Blood Clotting.
- ◆ Decrease Cholesterol levels.
- ◆ Lowers High Blood Pressure.
- ◆ Stabilize Blood Sugar.
- ◆ Relieve Stomach Disorders.
- ◆ Improve and Support Liver Function.
- ◆ Tighten Skin and Maintain Skin Moisture.
- ◆ Detoxifies Body of Heavy Metals and Dangerous Chemicals.
- ◆ Has Antiviral, Antibacterial, and Anticancer Properties.
- ◆ Contains Powerful Antioxidant Compounds.

Alginates: Binds heavy metals and radioactive substances.

Polyphenols: Highly concentrated antioxidant compounds that collect dangerous free radicals capable of damaging cells and causing degenerative conditions. (This alone is enough reason to consider it a valuable supplement).

Live Plant Enzymes: Boosts protein digestion, immune function, and overall health.

What makes Limu NEI so powerful?

TBR Labs has combined “Mothers Milk from the Land—Colostrum with Mothers Milk from the Sea—Limu” to form a revolutionary product that benefits your Immune System, Endocrine System and your Nervous System, plus the Anti-Aging factors in the base as well. Limu NEI has condensed 40 pounds of limu (*Laminaria Japonica*) down to one pound, a 40:1 ratio, to give the highest concentration available. And that's only the beginning.

Fucoidan occurs naturally in seaweed between 2.5 and 4%. The concentration level of Fucoidan Extract in Limu NEI is 80%. We then return this highly concentrated Fucoidan extract to the base of our Limu NEI.

And there's more! Limu NEI is effervescent and isotonic. Which means, it has the same electrolyte balance as our blood! It is highly absorbable and has immediate delivery into the system because it bypasses the digestive process.

Taking colostrum and limu, and placing them in a 100% all natural food base with no preservative and support them with an effervescent delivery system is truly a breakthrough in the health industry.

How can Limu NEI help me?

As scientific data on its constituents emerge, this ocean organic is creating new interest among biochemists. Limu, as a whole food in combination with first milking colostrum, offers remarkable Nutritive, Immune-Building, Disease-Fighting and Anti-Aging properties. In its concentrated form, it promises an even wider variety of therapeutic applications.

“I have tried many products to help me with menopausal issues. Limu NEI works! I love the taste and actually look forward to drinking it. My hot flashes and night sweats have disappeared. I sleep better, have more energy and feel more balanced. Thank you so much! I feel absolutely great!”

—H. Kruger

“Since I have been on Limu I have noticed my thyroid has been more stable, my eye sight has improved, and my energy level has been great! This has happened in just 3 months. I am very happy with the results! This product is great and I recommend it to anyone!”—A. Stravrum
